Cst. Bruce Hadley Memorial

RELAY RUN

for Heart

Event profile

The Inaugural Bruce Hadley Memorial Relay Run for Heart is the first partnership of its kind between the Heart and Stroke Foundation of New Brunswick and the Royal Canadian Mounted Police. This event is being held in honor of Bruce Hadley and the many others who have lost their lives as a result of heart related issues.

On August 25th 2007, Bruce passed away as a result of a heart attack. It occurred while he was jogging, something he loved to do on a regular basis. Bruce was only 32.

Bruce was a role model employee for the RCMP. He worked in the Fredericton, Bathurst and Edmundston areas. Prior to his passing, Bruce was a member of the drug section in Bathurst.

Bruce enjoyed giving back to the community by being involved with various groups including Operation Red Nose, minor soccer and Drug Abuse Resistance Education (D.A.R.E).

Bruce was from Bathurst and sadly left behind a loving wife and two young children. As an RCMP officer, he touched the lives of many people. For this reason, his family, friends, and co-workers have decided to organize this run in his honour.

How can I get involved?

Registration is easy. Find 20-25 participants, fill out the registration form on the back of this brochure and fax it to (506) 648-0098 or email the information to Angie Thibodeau at angiewynn55@msn.com. Each participant must pay a registration fee of \$10 and fundraise a minimum of \$100 prior to the event. Fundraising can be done in many ways including team fundraisers, collecting pledges, raffles or using the online site we have set-up at www.heartandstroke.ca.

Where will the money go?

All of the money raised from the Relay Run for Heart will assist the Heart and Stroke Foundation of New Brunswick in purchasing Automated External Defibrillators (AEDs).

The AEDs will be placed in various public locations, in selected communities throughout New Brunswick. This is in the hopes that they will save more people, like Bruce, who might have had a chance of surviving, had an AED been made readily available.

What to expect at the event:

- Registration Package
- Relay Run T-shirt
- Heart Healthy Lunch
(At closing in Bathurst)
- EMS support along the route
- RCMP escorts along the route
- Closing ceremonies in Bathurst
- Presentation to the Hadley family
- Teams Awards (Most energetic, etc.)
- Meeting great people from all over NB
- A great feeling of accomplishment

The Event agenda...

The run will start at 8 am on August 23rd, from the RCMP headquarters in Fredericton. The run will go overnight and end in Bathurst on August 24th. This run is a non-competitive event, but each leg will be timed, and closely supervised by the RCMP.

The total distance of the run is approx. 250 kilometers. The course will be broken up into several shorter legs (ranging from 5km to 20km), which will allow runners of all skill levels to participate. Each relay team will be responsible for having their members arrive at their specified leg, at the specified time.

Please note that there will be another Relay Run for Heart group of participants leaving from Edmundston, set to arrive in Bathurst at the same time. All participants, from both runs, will meet up one km outside Bathurst. The objective is for all to run into the city together.

In Bathurst, a meal will be provided, followed by a presentation to the Hadley family from the RCMP and Heart and Stroke Foundation.
